	Name and manufacturer of the product	**Date [dd/mm/yyyy] and time of treatment [00.00]**	**Name in capitals, stamp and signature**
		/2024 - 11:00 am	Dra. Lesly Victoria López Inciso

Notes

a) This certificate is meant for dogs (*Canis lupus familiaris*), cats (*Felis silvestris catus*) and ferrets (*Mustela putorius furo*).

b) This certificate is valid for 10 days from the date of issue by the official veterinarian until the date of the documentary and identity checks at the designated Union travellers`point entry (available at http://ec.europa.eu/food/animal/liveanimals/pets/pointsentry_en.htm).

In the case of transport by sea, that period of 10 days is extended by an additional period corresponding to the duration of the journey by sea.

For the purpose of the further movement into other Member States, this certificate is valid from the date of the documentary and identity checks for a total of 4 months or until the date of expiry of the validity of the anti-rabies vaccination or until the conditions relating to animals less than 16 weeks old referred to in point II.3 cease to apply, whichever date is earlier. Please

COUNTRY: PERU **Non-commercial movement into a Member State from a territory or third country of dogs, cats or ferrets in accordance with Article 5(1) and (2) of Regulation (EU) Nº 576/2013**

II. Health information	II.a. Certificate reference Nº **0000**	II.b.

note that certain Member States have informed that the movement into their territory of animals less than 16 weeks old referred to in point II.3 is not authorized. You may wish to inquire at http://ec.europa.eu/food/animal/liveanimals/pets/index_en.htm.

Part I:

Box I.5 C*onsignee*: indicate Member State of first destination

Box I.28 *Identification system:* select of the following: transponder o tattoo.

Identification number: indicate the transponder or tattoo alphanumeric code.

Date of birth/breed: as stated by the owner

Part II:

([1]) Keep as appropriate

([2]) The declaration referred to in point II.1 shall be attached to the certificate and comply with the model and additional requirements set out in Part 3 of Annex IV to Implementing Regulation (EU) Nº 577/2013.

([3]) The evidence referred to in point II.1 (e.g. boarding pass, flight ticket) and in point II.2 (e.g. receipt of entry to the event, proof of membership) shall be surrendered on request by the competent authorities responsible for the checks referred to in point (b) of the Notes.

([4]) Any revaccination must be considered a primary vaccination if it was not carried out within the period of validity of a previous vaccination.

([5]) The declaration referred to in point II.3.2 to be attached to the certificate complies with the format, layout and language requirements laid down in Parts 1 and 3 of Annex I to Implementing Regulation (EU) Nº 577/2013

([6]) A certified copy of the identification and vaccination details of the animals concerned shall be attached to the certificate.

([7]) The third option is subject to the condition that the owner or the natural person referred to in point II.1 provides, on request by the competent authorities responsible for the checks referred to in point (b), a declaration stating that the animals have had no contact with animals of species susceptible of rabies and remain secure within the means of transport or the perimeter of an international airport during the transit through a territory or a third country other than those listed in Annex II to Implementing Regulation (EU) Nº 577/2013. This declaration shall comply with the format, layout and language requirements set out in Parts 2 and 3 of Annex I to Implementing Regulation (EU) Nº 577/2013.

([8]) The rabies antibody titration test referred to in point II.3.1:

- must be carried out on a simple collected by a veterinarian authorized by the competent authority, at least 30 days after the date of vaccination and three months before the date of import;
- must measure a level of neutralization antibody to rabies virus in serum equal to or greater than 0,5 IU/ml;
- must be performed by a laboratory approved in accordance with Article 3 of council Decision 2000/258/EC (list of approved laboratories available at http://ec.europa.eu/food/animal/liveanimals/pets/approval_en.htm);
- does not have to be renewed on an animal, which following that test with satisfactory results, has been revaccination against rabies within the period of validity of a previous vaccination.

A certified copy of the official report from the approved laboratory on the results of the rabies antibody test referred to in point II.3.1 shall be attached to the certificate.

([9]) By certifying this result the official veterinarian confirms that he has verified, to the best of his ability and where necessary with contacts with the laboratory indicated in the report, the authenticity of the laboratory report, the authenticity of the laboratory report on the results of the antibody tiration test referred to in point II.3.1.

([10]) In conjunction with footnote ([6]), the marking of the animals concerned by the implantation of a transponder or by a clearly readable tattoo applied before 3 July 2011 must be verified before any entry is made in this certificate and must always precede any vaccination, or where applicable, testing carried out on those animals.

([11]) The treatment against *Echinococcus multilocularis* referred to in point II.4 must:

- be administered by a veterinarian within a period of not more tan 120 hours and no less than 24 hours before the time of the scheduled entry of the dogs into one of the Member States or parts thereof listed in Annex I to Delegated Regulation (EU) Nº 1152/2011;

COUNTRY: PERU

Non-commercial movement into a Member State from a territory or third country of dogs, cats or ferrets in accordance with Article 5(1) and (2) of Regulation (EU) Nº 576/2013

II. Health information	II.a. Certificate reference Nº **0000**	II.b.

- consist of an approved medicinal product which contains the appropriate dose of praziquantel or pharmacologically active substances, which alone or in combination, have been proven to reduce the burden of mature and immature intestinal forms of *Echinococcus multilocularis* in the host species concerned.

([12]) The table referred to in point II.4 must be used to document the details of a further treatment if administered after the date the certificate was signed and prior to the scheduled entry into one of the Member State or parts thereof listed in Annex I to Delegated Regulation (EU) Nº 1152/2011.

([13]) The table referred to in point II.4 must be used to document the details of treatment if administered after the date the certificate was signed for the purpose or further movement into other Member States described en point (b) of the Notes and in conjunction with footnote ([11])
